CITY INTELLIGENCE.

United States Commissioner's Case.—At noon to day, before United States Commissioner Hibler, anthony Murphy had a hearing upon the charge of aiding and abetting in the illegal removal of distilled

adding and abetting in the illegal removal of distilled spirits.

Revenue Detective Heilman affirmed—On the 4th of November last I stopped at Nos. 18 and 20 Thompson street, a place occupied as a vinegar establishment, and owned. I think, by W. W. Gray; found six barrels of whisky, one not entic full; one had no mark on it at all; the others were marked "H. A. Harrington, United States Ganger and Inspector, First district, Pennsylvania, May, 1988," without any inspection marks as to contents; they were also marked "James Davia, No. 920 William street"; the mark of "Harrington" is an old mark jand as to "Davia," there is no such place; the whole of them were fraudulent; five of the barrels were marked "rectified"; I put a keeper in charge till the whisky was seized and condemned.

Mr. William W. Gray sorroborsted the evidence of Detective Heilman, and stated that he had bought the whisky of Murphy and another man mamed McCrackon; he did not examine it until after the seizure; he was in the effice when it was brought to his place, and remained there until it was put into the cellar; the whisky was seized the day after it was bought; he did not go into the cellar at all till after the seizure; he did not touch the whisky.

Defendant held in \$1000 ball to answer.

Police Appointments.—The pressure by Demo-eratic officials upon Mayor Fox was continued this morning, and the time which he usually devotes to instening to the reports of his lieutenants was con-sumed in hearing the demands for the removal of all the Republicans now on the force. It is said that his Honor had intimated that he intended to retain a number of these gentlemen, whereat the represe they have threatened vengeance. They say that if all the positions are not given to those who elected Mayor Fox, they will recommend indignation meetings throughout the city.

SERENADE TO MISS SUSAN GALTON.—The orchestra of the Theatre Comique last night, at 12 o'clock, welcomed Miss Susan Galton back to Philadelphia by a screnade. Several line airs were performed concluding with "Auld Lang Syne." Miss Galton was highly gratified at the compliment, and shook was highly gratined at the compliment, and shook hands cordially with each of the musicians, and Mr. Whiffin made a brief speech, in which he thanked them on behalf of the young prima donna. After partaking of a collation, the musicians said good night, and the company separated well pleased with

LIGHT-FINGERED. — Yesterday afternoon, as Mr. Wilson, a member of the firm of Wilson & Brother, was passing into the Manufacturers' National Bank, at Third and Vine streets, some light-fingered gen-deman relieved him of the contents of his wallet, which he carried in an inside pocket. It contained which he carried in an inside pocket. It contained two checks for the amounts respectively of \$598 and \$22, besides \$260 in money. The checks have had their payment stopped, but the money, of course, is at the disposal of the thief.

DASTARDLY ACT .- A. F. Furrows, an employe of the West Chester Railroad Company, was arrested last evening for wantonly and maliciously killing a valuable dog belonging to Colonel S. B. Wylie Mitch-ell. At the time of the arrest, a four-barrelled loaded pistol was found on Furrows' person. This morning he was held to bail, by Alderman Samuel P. Jones, to the amount of \$300 to appear and answer at the next term of the Court, and was also fined for dis-charging firearms in the public highways.

Found Drowned.—This morning an unknown white man was found drowned at Spruce street wharf. He was about thirty years of age, 5 feet 8 inches high, and has brown hair. He wore a black sack coat, trimmed with wide braid, check shirt, light cassimere pants, long boots, and had a leather strap around his waist. The Coroner took charge of the body.

YOUTHFUL DEPREDATORS.—John Toner, Michael Toner, Daniel Logue, and John Logue, all youths, who have been in custody many a time, jast night went into Carroll's tavern, at Twenty-third and Marwent into Carroll's tavern, at Twenty-third and Mar-ket streets, and after raising a dispute with the pro-prietor, beat him and his wife. They were arrested, and after being given a hearing before Alderman ones, were sent below for trial.

STOLEN PROPERTY FOUND,—About 10 o'clock '98t night, Policemen Francis and Gibson found a large piece of a copper pump on a lot on Twenty-fourth street, below Simes, covered by a quantity of rubbish, where it is supposed to have been hidden by thieves. It awaits an owner at the Park Station.

A HEAVY RAIN .- The city was visited last night with a terrific rain storm, which prevailed during the entire night. No damage was reported this morning as having been sustained by any properties, further than that a portion of the fence around the Eighteenth District Police Station was blown down.

EXCELLENT APPOINTMENT.—Charles W. Ridgway has been appointed Chief Clerk of the Auditing Department of the Custom House by Collector Moore, Mr. Ridgway is an old resident of the Sixth ward, and has long been identified with the Republican

GUNFOWDER AS A MOTIVE POWER.—The application of this principle to heavy forging will be exhibited at the monthly meeting of the Franklin Institute this evening, at 8 o'clock, by Thomas Shaw, the inventor.

FOOLHARDINESS.

Two Adventurers Narrowly Escape Death.

Augusta, Mc. (April 16) Cor. Boston Journal. This afternoon Charles Marston and Frank Davis, of this city, performed the foolish and reckless ex-ploit of salling over the dam in a batteau. Marston is the young man who had twice within the past week performed the same feat. Davis undertook week performance on a wager of \$100. A large crowd assembled on both sides of the river to view the performance, and as it was well known that the voyagers were to sail over the middle of the dam, thus making the feat as thrill-ing as it could be made, the liveliest excitement prevalled, while curiosity was on tip-toe as to the re-sult. At half-past three o'clock the wherry contain-ing the adventurers put off from the east side of the river, paddled by Marston. Both were seated amidships. On reaching the middle of the river the boat was given up to the current, and down she shot, her speed increasing as she approached the edge of the dam, when, amid the breathless silence of the specdam, when, amid the breathess should be tators, she plunged over the abyss into the foat turbulent waters beneath. Where the boat turbulent waters beneath. Where the boat went over was not at the perpendicular part of the dam, but the sloping portion, a descent some twenty feet, the foot of which was composed of a series of whirlpools. Into this seething vortex of eddies the boat disappeared, and when next seen it was shattered and bottom up, the men clinging to the wreck for dear life. The scene was intensely exciting, the boat being at the com-plete mercy of the undertow, with scarcely a pros-pect of the men saving their lives. A boat was sent out from the shore to attempt a rescue, but it proved abortive, it being impossible to extend relief. There was hardly a witness of the scene but expected to see the men meet with a watery grave. In the midst of the danger Davis proposed quitting the shattered boat and trying to swim ashore; but Marston being an expert raftsman, and not for one moment losing his seif-possession, told his companion to hang on and he weald get them both out of the trouble. And he did. By a skilful and dexterous use of the paddle, which he had retained during the seif-possession. ing the exigency, he worked the boat out of the foaming and dangerous gorge, and in a few minutes they came ashore amid the wildest shouts of the crowd. Had it not been for Marston's familiarity with river driving it is highly reachable. with river driving, it is highly probable neither would have reached the shore alive. Marston has offered to go over the dam at the same place again on a log if a purse of twenty-live dollars can be made up for him. But it is hoped that the city authorities will put a stop to a repetition of such rash and reckless

Burned to Death.

The York (Pa.) True Democrat says:—"A painful and fatal accident occurred at Liverpool, six miles north of our borough, on Friday last. A little boy and girl, son and daughter of Dr. David Quickel, were playing near the hog-pen, and among other things, attempted to set fire to some rubbish, which they mit succeeded in partially igniting. they only succeeded in partially igniting. With a view to facilitate matters, the little boy went into the hog-pen to get some straw, of which there was a considerable quantity, and, it seems, carried some of the fire into the enclosure with him on his panta-leons. The pen closed with a spring or trap-door, which could not be opened from the inside, and the fire communicating with the straw soon spread around the helpless boy, who was unable to escape from his confinement. Before he could obtain help he was burned to death. Dr. Quickel, the father, who came to the rescue of his son, was so badly burned, in his frantic efforts, that the scalp of his head was literally pecied off, as well as the caps or skin of both hands. At last accounts he was lying in a critical condition. The girl escaped uninjured."

The New York Money Market.

The Tribune says:—
"Money was in good supply at 7 per cent. on call. Commercial paper is in good demand at 9@11 per cent, with the bulk of transactions at 10 per cent. The banks continue to be in receipt of currency from the country, and the supply is now fully equal to the

"Sterling Exchange is higher, upon an active demand from the foreign houses, who were purchasing in order to remit the proceeds of gold coupons that have been sent for collection. Prime 60-day bankers' bills advanced to 1083, @1083; sight bills, 1083, @109."

The Herald says:—
"The offerings of money were much more abunddent to-day, and a good proportion of the loans on call were made at six per cent., especially where the coi-

laterals were Government securities. Borrowers were in no haste to make their engagements until late in the day, which fact developed a more active inquiry about haif-past 2 o'clock; but the demand was fully satisfied at seven per cent, and unemployed balances were again freely offering at 3 o'clock. Discounts were easier, and prime double name acceptances sold at nine per cent. The quotable rate for commercial paper is nine to twelve per cent. The banks are discounting more freely for their regular customers, and report a steady increase in the receipts of currency from the country. While the money market is thus drifting to the ease and abundance of the spring and summer months, there is a strong speculative feeling in the gold market, based upon the large extent of our foreign imports and the governmental policy of hoarding gold. To-day the premium was subjected to the continued disturbance produced by the apprehension of compilications arising out of the Cuban and Alabama claims question. As the morning progressed the speech of Senator Chandler began to be treated as farcical and the market yielded, but the heavy customs payments of the day, amounting to nearly half a million of dellars, created new apprehension, especially as the real scarcity of gold is very manifest, the banks holding less than eight million. hension, especially as the real scarcity of gold is very manifest, the banks holding less than eight millions and the premium took another upward turn at the close. The European steamer brought \$100,000 in

Loans of cash gold early in the forenoon were made at flat and 2 per cent. for borrowing, with an exception at 2 per cent. for carrying. As the morning progressed it developed considerable activity in the loan market, and as high as 1-16 was paid before 11 o'clock; but the supply became fuller before Clear-ing House time, and loans were again made flat up to the hour of settling. In the afternoon 6 per cent. was paid to carry balances over. The following is the report of the Gold Exchange Bank:—Gold

the report of the Gold Exchange Bank:—Gold cleared, \$97,665,000; gold balances, \$1,992,597; currency balances, \$3,047,167.

"Foreign exchange was more active under a speculative demand for bills, which, it is thought, will soon be in urgent request for payment of the coupons now arriving in every mail from Europe. The buying was doubtless stimulated by the lower quotations for bonds in London, although the foreign bankers are still shipping our securities. The supply bankers are still shipping our securities. The supply of commercial bills on the market is very limited. Quotations to-day were made upon a basis of 109 for short sight prime bankers' sterling, 108 for the same grade of sixty day bills, and 107% for the best commercial bills.

"Governments were heavy, under the effect of a

further decline in Five-tweaties at London, where the opening price this morning was 80%, from which here was a yield to 80%, and a reaction to 80%. present prices have brought a great many bonds out of the hands of private holders in the city and country, and the market is, therefore, better supplied than it has been in a good while."

WASHINGTON. FROM THE CAPITAL.

The North Pacific Squadron-Advices from Admiral Hoff-Condition of Affairs in Cuba.

Department Clerks-Who They Are, and How They Were Appointed-Foreign Missions.

FROM WASHINGTON.

Special Despatch to The Evening Telegraph.

Condition of Affairs in Cuba-Advices from Admiral Hoff. Washington, April 21 .- Despatches received to-day from Admiral Hoff state that there is no material change in the condition of affairs in Cuba. The Spaniards and insurgents are fighting in the interior, both parties claiming successes. Large numbers of troops and arms are being received from the home Government. So far as can be ascertained, there has been no landing of troops or arms in Cuba to aid the insurgents, from the United States. Admiral Hoff is in constant communication with our acting Consul at Havana, and would be likely to know if any arms or troops had been landed from the United States.

The Mary Powell.

The fact that the ship Mary Powell was condemned by the Spanish court in Cuba will, in the opinion of the Spanish Minister, have necessitated a reference of the question to the home Government before the ship can be delivered. This will delay action in the matter for some

The Unfortunates, Pile and Carlisle. Senator Sumner this morning notified the Secretary of State that the Committee on Foreign Relations had decided to object to Messrs. Pile and Carlisle, nominated respectively to Brazil and Belgium, and suggested to him the propriety of withdrawing them or substituting some other names in their place. It had been decided in the Cabinet yesterday not to send in any more nominations, and that any vacancies that might occur could be filled after Congress adjourned. Secretary Fish informed Sunner, however, that he would notify the President relative to Pile and Carlisle. The Extra Session.

Mr. Sumner has offered a resolution to extend the present session of the Senate, which he intends calling up to-morrow. He will make a vigorous fight to postpone the time of adjourn-

Department Clerks.

In the Senate to-day a lively debate sprung up on the resolution offered by Mr. Carpenter, calling upon the heads of departments for information as to the number of clerks in their several departments, their names, when they were appointed, and how recommended, etc. In the course of the debate General Cameron said that none of the appointments from Pennsylvania under the administration thus far had been made at his solicitation. He had no doubt nine-tenths of them were his friends, because it would be impossible to appoint Republicans from Pennsylvania without getting a majority of them his friends. He deprecated the practice of appointing persons to office without consulting Senators and members.

The United States Senate.

Washington, April 21.—Mr. Wilson called up his resolution authorizing the Secretary of the Navy, with the consent of the Colombian Government, to cause further surveys to be made for a railway or ship canal across the lathmus of Darien.

After debate, the resolution was laid over in order to put it in a more acceptable form.

Mr. Anthony reported that the Committee on Printing that made a contract with Bailey & Rives for printing the Congressional proceedings, and explained that it would effect a saving of \$18,000 a year from the present rates.

Mr. Carpenter then urged the adoption of a resolution calling on all the departments for detailed information respecting the number, nativity, recommendations, etc., of their employes, to be made the basis of legislation next nession.

their employes, to be made the basis of legislation next session.

A long debate sprang up in regard to the condition of tee departments, the probable expense and difficulty in obtaining the information, the rights and duties of members of Congress respecting appointments, etc., which was engaged in by Senators Pomeroy. Trumbull, Fessenden, Cameron, and others.

Mr. Abbott offered an amendment providing that appointments to department positions shall be made according to State populations, which opened a wide range of debate and caused a discussion of the relative rights of the North and South.

Mr. Sawyer asserted that the Democratic State of Kentacky had received more appointments in the department than the entire Republican South, and said he had been told by a member of the Cabinet lately, that the Senators from the reconstructed States must remember that the whole Republican vote of the South was very small.

At 130 the Senate went into executive session.

Attempted Bank Robbery. ROCHESTER, April 21.—An attempt was made to rob the bank at Lima at 2 o'clock this morn-

ing. The burglars were discovered at work after they had obtained entrance into the vault, but before they had opened the safe a party of citizens collected, who pursued the burglars, and fired upon them. Their tools were captured. They were traced to this city.

A Submerged Railway Track. BUFFALO, April 21. - The Grand Trunk Railway track is entirely under water between here and Brantford. The express train which left this city at 6 o'clock this morning was obliged to return. So far the freshet has not impeded travel on the Great Western Railway.

Irresponsible Appointments—What Senator Cameron Says of Them - Resignations and Removals by the Secre-

taries.

The President Visited by Pennsylvanians.

FROM WASHINGTON.

Special Despatch to The Evening Telegraph.
Scantor Cameron on "Irresponsible Appointments to Office." WASHINGTON, April 21.—Senator Cameron, in

the debate in the Senate on the manner of sending in nominations, said that the Senators of the State from which the appointees were to come were rarely consulted. This had been done to a great extent under this administration, and the evil effects of it had been seen. Only the other day a man had been nominated for an important foreign mission (referring to Alexander L. Russell, nominated for Ecnador), without anyconsultation with the Senators from Pennsylvania.

The man was recommended by the Governor of the State, members of the Legislature, and others in Pennsylvania; but he was a constitutional drunkard, and it was with difficulty that he (Cameron) and his colleague (Scott) had him withdrawn. Another man had been nominated for a consulate from Pennsylvania without any recommendations of or consultation with the Senators from that State, and he turns out to be a constitutional thief. Senator Cameron here referred to the case of Ferdinand Coxe, nominated as Consul to Leghorn, "This," said the Senator, "is what comes of this irresponsible appointment to office."

Senators Trumbull, Carpenter, Abbott, and Sawver favored the views of Cameron. Despatch to the Associated Press.

Walted on the President.
WASHINGTON, April 21.—A delegation, composed of a dozen Pennsylvanians, headed by Colonel John W. Forney, called at the White House to-day and had an interview with the President. They will leave to-morrow on an extended tour South, to examine into the condition of that section's prospects, resources, wants, and disposition toward the Government.

Resignations Accepted. The resignations of Captain Amos Webster and Second Lieutenant William B. Clark have been accepted by the President.

Ordered Home. Fleet Paymaster George F. Cutter is detached from the Piscataqua, on the Asiatic Squadron, and ordered to the United States. Removal of Revenue Officers.

About forty revenue officers, in various districts of the United States, were removed to-day. Commissions Sent In. The commissions of a large number of col-lectors, appraisers, and surveyors, lately con-

firmed by the Senate, were sent to the President to-day for his signature. The Rush. Office-seekers flock to the Treasury and other

Executive offices to-day, having heard that appointments are being made. Odd Fellows' Day. Secretary Boutwell to-day authorized heads of bureaus in the Treasury Department to grant

leave of absence to Odd Fellows, at discretion, to attend the forthcoming celebration in Phila delphia.

FOREIGN.

By Atlantic Cable.

The Italian Budget. FLORENCE, April 21.—The Minister of Finance has presented the annual budget to the Chamber. The document is very satisfactory. The income of the Government is steadily increasing,

pose any new taxes for the current year. Another Mazzini Conspiracy. MILAN, April 21 .- The Government authorities have discovered another formidable Maz-

and consequently it will be unnecessary to im-

dni conspiracy in Italy. Papers which were concealed by the revolutionists, and which give details of the organization, were unearthed and seized, together with a large amount of arms and ammunition, and several of the ringleaders have been arrested.

The Rogers Murder.

New York, April 21 .- James Maher, arrested ome months since on a charge of complicity in the Rogers murder, was brought before Judge Cardozo, of the Supreme Court, to-day, on a writ of habeas corpus, and discharged from ens tody, the District Attorney interposing no ob-

Death of an Ex-Congressman, RICHMOND, April 21 .- General T. L. Haywood, a member of Congress from Virginia before the war, died this morning.

CUSTOM HOUSE APPOINTMENTS.—The Secretary of CUSTON HOUSE APPOINTMENTS.—The Secretary of the Treasury has approved the following appoint-ments to the Custom House in this city, on the recom-mendation of Collector Moore: Inspectors—A. THE LATEST NEWS. PULMONIC SYRUP. SEAWEED TONIC, and

MANDRAKE PILLS

WILL CURE

CONSUMPTION, LIVER COMPLAINT. AND DYSPERSIA.

If taken according to the directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver, and put it te work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the patient outgrows the disease and gets well. This is the only way to cure Consumption.

To these three medicines Dr. J. H. SCHENCK, of Philadelphia, owes his

UNRIVALLED SUCCESS

In [the treatment of Pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe, a slight cough will throw it off, and the patient has rest, and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and food will make good blood.

SCHENCK'S

MANDRAKE PILLS

Act upon the liver, removing all obstructions; relax the ducts of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the pills can do; nothing has ever been invented except calomel (a deadly poison which is very dangerous to use unless with great care) that will unlock the gall bladder and start the secretion of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most Prominent Causes of Consumption.

SCHENCK'S

CHARTERED BY SPECIAL ACT OF CONGRESS SEAWEED TONIC

Is a gentle stimulant and alterative, and the alkali in the seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring the stomach.

THE GREAT REASON

Why physicians do not cure Consumption is, hey try to do too much; they give medicines to stop the eough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and

Dr. SCHENCK, in his treatment, does not try to stop a cough, night sweats, chills, or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker. Ulcerated Throat, unless the liver and

stomach are made healthy. If a person has consumption, of course the lungs are in some way diseased-either tubercles, abscesses, bronchial irritation, pleural adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Dr. SCHENCK'S three medicines, which will bring up a tone to the stomach, the patient will want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow, the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure Consumption.

WHEN THERE IS NO LUNG DISEASE.

And only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup.

Take the Mandrake Pflls freely in all bilious cases, as they are

PERFECTLY HARMLESS.

Dr. SCENCK, who has enjoyed uninterrupted health, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless, and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparations with the same remarkable success. Full directions accompany each, making it not absolutely necessary to personally see Dr. Schenck, unless patients wish their lungs examined, and for this purpose he is professionally at his Principal Office,

PHILADELPHIA, EVERY SATURDAY.

Where all letters for advice must be addressed. THOMPSON REYNOLDS, Importer, Wholesale and Retail Dealer in He is also professionally at No. 32 Bond street, New York, every other Tuesday; and at No. 35 STRAW AND MILLINERY GOODS, Hanover street, Boston, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is \$5. Office hours at each city from 9 A. M. to 3 P. M. Price of the Pulmonic Syrup and Seaweed Tonic, each \$1.50 per bottle, or \$7 a half dozen.

Mandrake Pills, 25 cents a box. A full supply of Dr. SCHENCK'S MEDICINES for sale at all times at his rooms. Also, for sale

at any time pre- by Druggists and Dealers.
